Experience

Virima Technologies India Pvt. Ltd. **Aug 2025 – Present**
Software Engineer *Bengaluru, India*

- Designed and owned a **product-wide Credential Management Service** for **21 credential types** across a multi-tenant SaaS product, centralizing application and infrastructure secrets through secure lifecycle REST APIs with **sub-50 ms response times**.
- Established and owned a **dependency mapping microservice** for asset relationships and **blast-radius analysis**, with upstream/downstream traversal, tenant isolation, and pagination; replaced approximately **1,000 per-node database calls in a tested request** with **level-wise batching and database-side filtering**.
- Built **Apache Flink topology-streaming pipelines** to transform infrastructure scan events into graph relationships, enabling visualization and analysis of **asset connectivity and network topology**.
- Built **scanner-cluster orchestration** to coordinate infrastructure discovery across sites, integrating agent registration, heartbeats, and location hierarchies for **site-targeted scans and real-time scanner status visibility**.
- Reduced Credential Service memory allocation by **87.5% (4 GiB → 512 MiB)** and right-sized CPU allocation to **0.5 cores**; raised test coverage from **20% to 90%+** across multiple core services and added **distributed tracing and monitoring**.
- Built a centralized notification microservice using **Server-Sent Events (SSE)**, replacing polling-heavy UI flows with **real-time status updates** across credential management, scanner clusters, and infrastructure discovery.
- Set up and deployed multiple **cloud-native microservices**, owning repository setup, **CI/CD**, containerization, deployment configuration, release automation, and code-quality and security gates.
- Contributed to refining an **internal AI-assisted development skill** for end-to-end feature delivery, validating generated code and tests and strengthening coding guardrails.
- **Tech:** Java, Spring Boot, Python, FastAPI, PostgreSQL, Redis, Kafka, Pulsar, Flink, Apache AGE/Cypher, HashiCorp Vault, Ory Kratos/Hydra, Docker, Kubernetes, AWS EKS.

Axeno Consulting Pvt. Ltd. **Jan 2025 – Aug 2025**
Software Developer (Full-time Internship) *Noida, India*

- Built a **dynamic reporting system** for a state government platform using Java and Adobe Experience Manager, enabling users to **view interactive reports and export results as CSV**.
- Developed a **scheduled and on-demand sitemap generator** with configurable inclusion/exclusion rules and edge-case handling, tested against content structures containing **1,000+ pages**.
- **Tech:** Java, Adobe Experience Manager, ACS Commons, Apache Sling, OSGi, HTL/Sightly, JCR-SQL2, JavaScript, Maven.

Blackbucks Education Pvt. Ltd. **Jan 2024 – Apr 2024**
Full Stack Developer Intern *Hyderabad, India*

- Developed **3 full-stack web applications**, integrating responsive React interfaces with backend REST APIs, authentication, and MongoDB-backed features.
- **Tech:** MongoDB, Express.js, React.js, Node.js, HTML, CSS, JavaScript.

GeeksforGeeks **Aug 2022 – Aug 2023**
Technical Content Writer Intern

- Published well-researched, original technical articles and mini projects on **Python**, amassing over **17,000 views**.
- **Articles:** Light or Dark Theme Changer, Dice Roll Simulation.

Technical Skills

Languages & Frameworks: Java, Spring Boot, Python, FastAPI, JavaScript, React, Node.js, Express.js, SQL, C/C++
Databases & Testing: PostgreSQL, MySQL, MongoDB, Redis, S3/MinIO, JUnit 5, Mockito
Cloud & Tools: Docker, Kubernetes, AWS EKS, Helm, Argo CD, GitHub Actions, Git, Linux, OpenTelemetry
Backend & AI: REST APIs, Microservices, OAuth2, OOP, DSA, DBMS, System Design, Claude Code, Cursor, MCP

Projects

Infant Care Web App (MERN, JWT) **December 2023**

- Built a **full-stack infant-care application** with a personalized dashboard, vaccine tracking, form validation, and authenticated access using JWT and password hashing.

Education

Jaypee University of Engineering and Technology **2021 – 2025**
B.Tech in Computer Science and Engineering *GPA 7.6*

Achievements & Certifications

- Achieved top 1% rank in NPTEL Privacy and Security certification 2025
- Certification in Web Development Bootcamp 2023
- Served as Volunteer and Coordinator at Google Developer Student Club 2023
